All our products are made in New Zealand.

**“ When energy is out of balance so is the world ” Anon**

**Life-energy**, also known as Ki, Chi, Prana, Zero point or Orgone is, the basic building block of life as we know it.

Have enough of it pulsing in and around your body and you will almost certainly be **healthy and vital.**

Have too little or unbalanced life-energy and you will more than likely be **unwell or depressed.**

Scientists now recognize that every thing is made of energy. We are energetic beings moving through and interacting with a sea of energy.

When this energy becomes disturbed by negative events or negative people it affects everyone.

**When energy becomes unbalanced ( negative ) people become sick.**

Disturbed energy in people expresses itself as sickness both mentally and physically. Dis-ease, according to all Eastern medical traditions ( and most Western holistic practice ) is ultimately caused by an energy imbalance within the body.

Places retain that disturbed energy.

You know what it is like when you are around negative people? It rubs off on you. They go but they leave their negative energy with you. It affects you – makes you feel “out of sorts” . You need to clear that away as quickly as possible – to turn the negative energy into positive.

Negative energy has to be brought back to balance.

In the case of both people and places that negative, unbalanced energy has to be brought back to balance to allow people to be healed and places to be cleansed.

Our devices can do just that!

We have both space balancing solutions and personal energy solutions.

“ Since buying your energy balancing device my son's mood swings have improved dramatically. Also, the house is noticeably more harmonious, I am sleeping better, and have more energy. ”

*Joyce Bryers Northcote, N.Z*

The p.e.bal ( pyramid energy balancer )

## How Life Energy Designs Devices work

To balance any unbalanced energy we have taken scientist Wilhelm Reich's technology that moves Orgone or life-energy in a massive way. We have added vortex technology and sacred geometry (with the p.e.bal ) to enhance the effect. This energy is then balanced or harmonized using high quality, energetically treated, quartz crystals. This combination results in the most potent energy balancers available today.

### What our energy balancing devices will do for you:

- ◆ Cleanse you energy field ( aura )
- ◆ Aid recovery from dis-ease
- ◆ Boost your immune system
- ◆ Protect you from EMF ( Electro Magnetic Fields )
- ◆ Balance your energy centers ( chakras )
- ◆ Emotionally calming
- ◆ Lift depression
- ◆ Cure night terrors
- ◆ Cure insomnia
- ◆ Alleviate pain
- ◆ Protect you against other peoples negative energies
- ◆ Clear houses/buildings/land
- ◆ Calm hyperactive kids
- ◆ Bring harmony to any relationship/situation
- ◆ Assist in reaching a meditative state

## What is EMF and how does it affect you?

EMF is produced by all electrical appliances and wires/cables that carry electricity.

We all know that power lines, microwaves, cell phones and computers are not so good for us but don't realize that a sewing machine, bedside clock, TVs, vacuum cleaners, hair dryers, electric shavers, remote controls, baby monitors, irons, cordless phones, energy saving bulbs, fridges, ovens, washing/drying machines, electric drills and even the car we drive ( to name but a few ) are also harming us by radiating us with EMF.

**We can not escape EMF radiation** – it is everywhere. It attacks us - is a foreign invader which our immune system is constantly fighting. While our immune system is fighting this unseen enemy we are in a constant flight or fight situation and never relaxing. **Sickness, stress and insomnia are the result!**

The bugs, bacteria and viruses are creeping in the back door undetected. We get sick and some times very, very sick because **our immune system is otherwise engaged** and not able to do its job of protecting us. Every thing goes haywire because we, as perfectly engineered beings, are being subjected to an outside influence that we were not designed to cope with!

Numerous studies have proved that EMF causes a reduction in melatonin, as well as higher levels of serotonin.

This causes these problems:

- ◆ Inability to deal with fevers
- ◆ Insomnia
- ◆ Increased risk of heart disease and arteriosclerosis
- ◆ Increased cholesterol
- ◆ Increased blood pressure
- ◆ possibility of developing blood clots
- ◆ Increased risk of strokes
- ◆ Miscarriages
- ◆ Sexual problems. Low sperm counts.
- ◆ Reduced T cells which attack cancer and virus cells.
- ◆ They also help prevent: -Alzheimer's disease -Lou Gering disease  
-Parkinson's disease -Multiple sclerosis.

We can't and don't want to live with out the convenience of modern technology - so where do we go from here? Protection!!

## Our solutions balance Energy and protect from EMF

"I had started to get really sore ears because of using a new cordless phone. I've been wearing my Nu-Me pendant consistently and using the cordless as little as possible, and my ears are better. It is such a relief!"

*Catherine Desorgher, Auckland, New Zealand*

### Aura Testing

( done with aura imaging technology [www.aura.net](http://www.aura.net))

1. This was a stable picture of a male adult subject 's energy field or aura. His chakras were out of balance.
2. We added a live cell phone ( not communicating ) which destabilized his aura completely.
3. We then put a Nu-Me protective pendant around the man 's neck. It cleared his aura and balanced his energy centres ( chakras ) within 2 minutes.

## Pyramid Energy Balancer

The p.e.bal generates a protective energy field of over 18 yards ( 18 metres ) radius. You will be able to feel this energy with your hands. It uses no batteries. It has no moving parts. It requires no maintenance. Every home and work place should have one.

## The P.e.bal ® ( Pyramid Energy BALancer )

This is the now the strongest device that we produce. The p.e.bal represents an evolution in energy balancing technology that is unique to us.

It still owes its major function to Wilhelm Reich's energy-moving technology but this has been dramatically enhanced using a combination of vortex and pyramid geometry technology.

The p.e.bal starts to move energy over 4km away, meaning that your home or work place is a simple job for it. It has a protective energy field of about 18m ( 19.5 yards ) radius - more than adequate to protect a house or most buildings.

Despite its power, the p.e.bal is very compact at only 4cm ( 1.57" ) high with 6cm x

6cm ( 2.36" ) at the base ( approx ). It is cast in pewter and engraved with symbols representing healing and balancing.

## The Nu-Me ® Pendant

THE NU-Me Pendant is the same technology as the p.e.bal. Because it sits all day in your energy field it is constantly balancing your energy centres (very calming), boosts your immune system and protects you 24/7.

The Nu-Me comes in two sizes and two finishes - copper and silver. Both sizes are big enough to afford full protection from EMF but the smaller size, the Nu-Me compact is less powerful energetically and is especially recommended for children, and the energy sensitive.

For those people that do not want to wear a pendant we have a clip-on version that can be fastened to a belt, waste-band or to under wear. This is in silver finish only.

## What the P.e.bal ® does

- ◆ Promotes deep and restful sleep.
- ◆ Protects your home or workplace from EMF / Geopathic stress.
- ◆ Makes any house into a peaceful and harmonious home.
- ◆ Radiates tangible energy without batteries or wiring!!! (feeling is believing).
- ◆ Disguises itself as a great looking ornament for the home or workplace.
- ◆ Clears buildings/land of disturbed energy.
- ◆ Assists any healing process.
- ◆ And much more

The p.e.bal comes in a free hand woven palm leaf trinket box.

## What the Nu-Me ® pendant does

The Nu-Me Pendant not only **protects from electro-magnetic pollution**, it:

- ◆ Is a stunning, easy to wear EMF protective pendant.
- ◆ Offers great choice of 2 sizes in both copper and silver finish.
- ◆ Balances the energy centers of the body (chakras).
- ◆ Reduces stress and is calming emotionally.
- ◆ Promotes restful sleep.
- ◆ Energizes.
- ◆ Assists mental alertness / learning abilities.
- ◆ Supports the immune system
- ◆ Promotes wellness.
- ◆ And much more.

The Nu-Me Pendant comes with a free rubber fashion cord.

## The Negater Shell.

The Negater “Shell ” starts to move energy over 2km away. It has a protective energy field of about 8-9m or 8-9 yards ( approx ) radius - more than adequate to protect the average house, buildings or land.

A real shell was used as the mold to cast The Negater “Shell ” which means that is as beautiful as only nature ’ s creations can be. Small enough to hold in your hand it is easily transportable and tactile enough so that you want to hold it. When the Shell is held it is working within your own bio-energy field ( in the same way as the Nu-Me pendant ) and so is calming and relaxing. This is especially important for insomniacs – hold it before going to bed and eliminate the days stress so that you go to bed nice and relaxed.

The Negater “Shell ”, which is cast in pewter:

- ◆ Promotes deep and restful sleep.
- ◆ Cures night terrors
- ◆ Protects your home or workplace from EMF / Geopathic stress.
- ◆ Makes any house into a peaceful and harmonious home.
- ◆ Radiates tangible energy without batteries or wiring!!!
- ◆ Was designed by nature and looks stunning.
- ◆ Is tactile and fits perfectly in a hand.
- ◆ Is a great tool for meditation.
- ◆ Is easily transportable.
- ◆ Is unique.

## **FREQUENTLY ASKED QUESTIONS ABOUT the p.e.bal® (applies to Negater Shell also)**

***Q: How quickly will my p.e.bal® start working?***

A: Immediately, it is constantly moving subtle energy, and balancing it. Don't forget that some people have to adjust the distance from the bed to cure their insomnia. For most people right beside the bed works best. If you find this over energising try it the other side of the bedroom.

***Q: Can I move my p.e.bal®?***

A: Yes, it is of a convenient size to take with you everywhere! You can take the p.e.bal® to and from work so that you can maximize the benefits and protection from it.

***Q: Can I have more than one in a house/room?***

A: Yes, we live with many! It may take a little time to adjust to their energy - experiment with their positioning. The benefits of having more than one is that they can be used as a personal balancer. Having one in your own room or space means that it is possible to hold the p.e.bal® whenever you feel particularly out of balance (low, stressed, anxious, hyperactive etc). They are then interacting with your energy field very fast. This is particularly beneficial for those people that suffer from insomnia.

***Q: Will my Nu-Me Pendant interfere with the p.e.bal®?***

A: No. They both use the same basic technology so work in harmony and enhance each other.

***Q: Do I need a Nu-Me Pendant if I have a P.e.bal®?***

A: The Nu-Me Pendant is with you all day because you wear it so it is continuing to protect and balance you when you are out of range of your p.e.bal®.

***Q: Is the Energy/protective field stopped by walls?***

A: No, within its field of operation nothing stops its efficiency. The p.e.bal® will balance a house and its occupants and put out a protective field against EMF Pollution of 16 meters in all directions

***Q: Do they need maintenance?***

A: No, except for a quick dusting!

***Q: Does my p.e.bal® need to be aligned North South.***

A: No.

***Q: Will the energy from the p.e.bal® harm my baby/children?***

A: No, No, No, it will benefit them greatly, at the very least from EMF Pollution. Our testimonials relating to the p.ebal and the Negater (the p.e.bal's older brother) show how many benefits parents have found- such as with hyperactive, depressed or introverted children, nightmares, travel sickness, insomnia, behavioural problems, the list is endless. Children benefit from the p.e.bal® as much (in our opinion, more) than adults.

## **FAQ ABOUT the NU-Me® Pendant & The Nu-Me® Compact Pendant.**

The Nu-Me® and Nu-Me® Compact. All of the answers equally relate to both products.

Some Q/A refer only to the copper version and not the silver.

Q: Will the Nu-Me® cure any illness or prevent cancer?

A: The Nu-Me® boosts your immune system and balances your energy field ( chakras ). It is not sold as a medical device, if you are sick you should consult your chosen health care professional. Most qualified health care professionals will tell you that your immune system, when working efficiently ( is not under stress from EMF ) enables the body to “self heal ”.

Q: Can I share my Nu-Me® with others. I have been told that with some protective pendants you can ' t?

A: Yes you can share the Nu-Me®.

Q Do I need to put my pendant in the sunlight to “recharge ” it. Some protective pendants you do?

A: No. The technology of these pendants is unclear but the technology used in our Nu-Me pendants does not require this.

Q: can I use a chain with my Nu-Me®?

A: Yes.

Q: How quickly will my Nu-Me® start working?

A: Immediately.

Q: Will I feel any benefits immediately?

A: Most people do, usually increased energy, feeling calmer, thinking more clearly, and a feeling of general well being.

A few people find the energy of the Nu-Me® very strong. They should wear their Nu-Me ®for two hours and then take it off for two hours for about two days until their bodies have adjusted to the energy. 99% of people easily make this adjustment. The energy of the Compact is much gentle so if you continue to find the energies of the Nu-Me® too strong contact us for an exchange.

Q: how does my Nu-Me® work?

A: It uses a variation on Wilhelm Reich ' s technology to move vast amounts of Orgone / Life-energy through high quality American quartz crystals so balancing your energy system and generating a protective harmonizing energy field at the same time.

Q: Will my Nu-Me® protect me from my cell phone?

A: Yes. It provides complete protection against phones in stand-by mode and much protection from an active phone, but NOTHING provides 100% protection against a cell phone when in use next to the head.

Q: will my Nu-Me® protect me from all EMF?

A: Yes.

Q: how long will my Nu-Me® last?

A: With reasonable care indefinitely.

Q: What is the difference between the Nu-Me® and the Compact?

A: The energy of the Nu-Me® is gentler – but is perfectly adequate to protect and balance an adult. We do not recommend the Nu-Me® for children under 12 years ( Compacts are great for kids old enough to wear a pendant ).

Q: Why do the Nu-Me® and the Compact cost the same?

A: Because the components in them are exactly the same and they cost us exactly the same to produce. The Compact is not a “lesser ” product.

Q: Have I got to wear my Nu-Me® round my neck?

A: No, but that is where it is most affective for balancing your energy field ( a aura ) as it is on your central meridian line. To protect against EMF it can be worn anywhere on the body – like in a pocket. Females often fasten it in their bra ( its then on the meridian line ). The Nu-Me clip-on is also available for those who do not want to wear a pendant.

Q: can I wear my Nu-Me® any way around?

A: You should wear it with the copper/silver back next to your body either next to your skin or over your clothes.

Q: can I wear my Nu-Me® in the shower?

A: Yes. But we recommend that you take it off when swimming.

Q: can I wear my Nu-Me® in bed?

A: Yes but if you prefer put it under your pillow. Keep it close to you so that it is continuing to do its work – which is to protect you. You will also ensure having a good night 's sleep.

Q: How can I prove my Nu-Me® is working for me – I don' t feel any different?

A: If you haven ' t consciously noticed a difference while wearing your Nu-Me® take it off for a couple of days. Then put it back on. See how you felt with and without it. You will be surprised. We are good at adjusting to changes and often don ' t even notice them.

Q: can I wear my Nu-Me® with other jewelry or crystals?

A: Yes. It will enhance your crystal jewelry and even energetically clean it.

Q: Is there any difference between magnetic products and Life energy products – the Nu-Me® and p.e.bal®?

A: They are completely different. Magnetic therapy claims to relieve pain. Our products balance life energy, protect from EMF and boost the immune system.

## Testimonials

"just wanted to mention that i received today a nu-me pendant. I must say that i am very impressed with the quality of it. and after i put it on i felt as though i was in a "bubble""

*Rayesh in Southern India*

"I gave a small silver Nu-Me to my 14 year old daughter and the number of mood swings and arguments has drastically reduced. I also use the p.e.bal at work by the computer and it has made a difference in reducing stress levels"

*Chris Brown, Hypnotherapist, Auckland, N.Z.*

"We are loving our nu-me pendant and negator shell.I can't tell you how excited we are to have them. We are feeling tangible differences -- and yesterday, my energy was so balanced throughout the day and after about an hour of wearing the nu-me pendant I felt a light euphoria. I noticed I was smiling more on the inside throughout the day too. Great products."

*Jeff Forte Tujunga, CA United States.*

"Before using the p.e.bal I had difficulty sleeping and after having had it a couple of nights found I was able to sleep for up to 7 hours. However I showed the p.e.bal to a relative who was very keen on trying it out. Hence I handed mine to her and she has found it is helping her in all sorts of ways - more harmony at home and at work. Hence I need to get another one for myself."

*Marlene Hunter,Christchurch, New Zealand*

"Good day to you David. I am overwhelmed with the affect your Negater has had on my life since purchasing from you. It is an absolute blessing to be experiencing night after night of resting sleep. Additionally, negative thoughts are a thing of the past for me, and the same affect has been achieved in my work environment since standing it there. Thus, I would like to order 4 more for areas that I feel they will contribute to. Kind regards."

*John Hillyer, Christchurch, N.Z*

The nu-me's and the p.e.bal arrived. They seem fantastic thus far. Impressive quality too ( you never can tell ordering over the internet, but these are solid and very good looking ) . As well as powerful. My wife had never been able to feel energy fields before ( from crystals etc ) , but felt it immediately from both the nu-me and p.e.bal.

*S. Madison, Sydney, Australia*

"I am not sure how to thank you enough! We had - yes had! 2 eight year old boys ( twins ) waking up screaming every other night with what is known as night terrors. When we read that your devices\* helped with sleeping so we thought we would give it a try. It has been 3 weeks now with both sleeping through the night. Amazing!"

*Julie. S, Palmerston North, N.Z*
